Problem-solving

EDUCATION

BACHELOR OF TECHNOLOGY

Deccan College of Engineering and
Technology
2021- 2025

SECONDARY SCHOOL

MS Junior College
2019 - 2021

PROFILE

A passionate fourth-year Computer Science student with over two years of hands-on experience in full-stack development, particularly with the MERN stack (MongoDB, Express, React, Node.js). Proficient in creating dynamic, responsive websites, and solving complex backend challenges. Eager to apply my skills in real-world scenarios and learn production-level best practices. Seeking an internship opportunity to further hone my skills in a collaborative environment while contributing effectively to team goals.

EXPERIENCE

FULL-STACK DEVELOPER INTERN

Dcrypt | 2024

- Developed and optimized backend logic for a web platform.
- Contributed to the frontend using React and styled with Tailwind CSS.
- Gained experience in hosting websites using platforms like Hostinger.

OPEN-SOURCE DEVELOPER

Self-initiated | 2023

- Built a streamlined open-source platform focused on enhancing user experience.
- Contributed to multiple projects on GitHub, focusing on backend logic and API integrations.

PERSONAL PROJECTS

PORTFOLIO WEBSITE

Built a personal portfolio using the MERN stack to showcase my skills and projects. The site includes detailed descriptions and links to my past projects, such as the Twitter clone and currency converter. It is fully responsive and designed for an optimal user experience using Tailwind CSS and Bootstrap.
